COMPANY OVERVIEW

EdgeTech IT is a US-based data center services and IT staffing company. We deliver skilled technicians, engineers and project managers for hyperscale and enterprise data center projects, plus cloud, cybersecurity and IT consulting.

CORE COMPETENCIES

- **Data Center Staffing**: Technicians, engineers, site leads and project managers for data center builds, deployments and operations, on C2C contracts.
- **Cloud Services & Migration**: Plan, migrate and run on AWS, Azure and Google Cloud with security and cost control built in.
- **Cybersecurity & Compliance**: Protect your data, people and reputation with risk-based security and audit-ready compliance.
- **Data, Analytics & AI**: Turn data into decisions with modern data platforms, BI dashboards and practical generative AI.
- **Custom Software Development**: Web, mobile and enterprise applications engineered for performance, security and growth.
- **DevOps & Platform Engineering**: Ship reliably and often with CI/CD, infrastructure as code and site reliability engineering.
- **Managed IT Services**: Proactive 24/7 monitoring, help desk and infrastructure management for a predictable monthly fee.
- **ERP, CRM & Enterprise Apps**: Implement and optimize Salesforce, SAP, Oracle, Microsoft Dynamics, ServiceNow and Workday.
- **IT Staffing & Staff Augmentation**: Pre-vetted IT professionals on C2C contracts, delivered fast.
- **Quality Assurance & Testing**: Manual, automated, performance and security testing that catches defects before customers do.
- **IT Strategy & Digital Transformation**: Technology roadmaps, vCIO advisory and program management that align IT with business goals.

DIFFERENTIATORS

- Data center specialists: deployment, fiber, network and critical facilities
- Experience on hyperscale programs through prime vendor partners
- Vendor-neutral recommendations
- C2C contract staffing and full site crews with site leads
- Candidate profiles typically within 24–72 hours
- Written safety program, code of conduct and screening standards
- US-based leadership and account management

INDUSTRIES SERVED
